## EDUCATION

---

**BS Software Engineering**, National University of Science and Technology (NUST)

CGPA : 3.42

## EXPERIENCE

---

**Full Stack Developer**

June 2024 - Sept 2024

BICS

*Rawalpindi*

- Designed and developed multiple NFT coin websites using React.js, transforming provided app logos into fully functional and visually appealing applications.
- Built a full-stack e-commerce store on Salla for a client, utilizing React.js for the frontend, Node.js, Express.js, and MySQL for backend development.
- Implemented responsive UI/UX components to ensure a seamless user experience across different devices. Moreover, integrated APIs, state management (Redux Toolkit), and third-party services to enhance functionality.
- Collaborated with cross-functional teams, coordinating with designers and backend developers to ensure smooth project execution from concept to deployment.

**MERN Stack Developer**

July 2023 - Sept 2023

Info AidTech

*Remote*

- Led the design and development of more than 10 dynamic user interfaces using React.js and JavaScript, enhancing user engagement by 25 percent through intuitive and user-centric designs.
- Optimized frontend performance by 30 percent by implementing advanced UI/UX strategies, reducing load times, and improving responsiveness.
- Continuously honed skills in UI/UX principles, staying updated with emerging trends and technologies to implement innovative frontend solutions and improve InfoAid Tech's digital presence
- Coordinated with teams to execute 8 projects, managing both frontend and backend aspects. Developed backend solutions to seamlessly integrate design elements and functionalities, ensuring a smooth user experience.

## PROJECTS

---

**Talent Sync – Job Portal**

- Talent Sync is a job portal built with the MERN stack that connects recruiters and candidates. Recruiters can post jobs, and candidates can apply by uploading their resumes. The platform includes secure authentication with role-based access control. A recruiter dashboard allows easy management of job listings and applications. With a responsive design, Talent Sync streamlines the hiring process for both parties.

**SnapGram - Social Media App**

- Instagram Clone is a social media platform built using Next.js, where users can authenticate via OAuth and upload real-time pictures with captions. Other users can like and comment on these posts, creating an interactive and engaging experience. The app integrates real-time updates, allowing users to see new content instantly. With a modern and responsive design, the platform offers a smooth and seamless social experience.

## SKILLS

---

**Web Dev**

Next.js, Node.js, Express.js, MongoDB, React.js, JavaScript, TypeScript, Tailwind

**Cloud**

AWS (EC2, S3, Lambda, Elastic Beanstalk, IAM)

**Tools**

VS Code, Netbeans, Github, Dev C++
